About Me

I'm a passionate Game Developer, UI/UX Prototyper, and Designer with experience in creating interactive and visually appealing games. I specialize in Unity development and enjoy blending gameplay mechanics with creative design to deliver engaging user experiences.

Education

BTech with specialization of Game Technology

Poornima University
2023-2027

High School

Rawat Public School
2023

Skills

■ Programming-

C, C++, C#, Java, Python, CSS, JS, HTML5

■ Tools-

Unity game engine, Figma, MySQL, Asperite

■ Core skills-

Game Design, UI/UX Prototyping, Level Design

Certification

- Unity Essentials – Unity Learn
- Foundations of User Experience (UX) Design – Google
- Start the UX Design Process – Google

Experience

■ Game Developer Intern

DataMonk | July 2025 - October 2025

Game development firm specializing in Unity development

- Worked as a Unity Game Developer Intern focusing on gameplay mechanics and optimization
- Developed and published two mobile games during the internship **Monkey Jump** and **Full Throttle**
- Implemented UI systems, player controls, and basic multiplayer mechanics
- Contributed to debugging and testing for improved performance and user experience

Project

■ MonkeyJump (Play Store)

A 2D platformer adventure where a monkey reclaims his banana from aliens. Reached 250+ downloads and 50+ monthly active users. Designed gameplay, level progression, and UI/UX.

■ Tile Up (Jio Games Jam)

A 2.5D isometric puzzle game where tiles disappear after each move, challenging players to plan strategically. Built for WebGL with Unity; focused on logic and level design.

■ Full Throttle (Play Store)

A 3D endless bike-riding game where players dodge obstacles to survive longer. Developed core mechanics, scoring system, and UI, achieving 50+ downloads on Play Store.

■ Flip verse (itch.io)

Designed and developed a fast-paced 2D platformer where players flip gravity to navigate challenging obstacle courses. Implemented smooth one-tap controls, responsive physics, and minimalistic UI for an engaging user experience.

ACHIVEMENT

- Secured First Prize in the Game Development category at Prayogam 2024.
- Developed and published two mobile games Monkey Jump and Full Throttle on the Google Play Store
- Won Jabali AI game jam January 2026
- GDAI Student Ambassador 2026-27.
