PROFESSIONAL SUMMARY

Unity Game Developer with 3+ months of hands-on internship experience building and publishing mobile games, and 1+ year of independent game-jam development. Skilled in C#, gameplay programming, UI/UX prototyping, and Agile/iterative development. Published 2 mobile titles on the Google Play Store reaching 300+ combined downloads, and won 2 national game jams. Seeking a Unity Developer / Game Programmer role to apply strong problem-solving, object-oriented programming, and cross-functional collaboration skills.

TECHNICAL SKILLS

- Programming Languages: C#, C, C++, Java, Python, JavaScript, HTML5, CSS3
- Game Development: Unity Engine (2D & 3D), Game Physics, Animation, Multiplayer Basics, Mobile Game Development, Object-Oriented Programming (OOP)
- UI/UX & Design Tools: Figma, Aseprite, UI/UX Prototyping, Wireframing, User-Centered Design
- Tools & Platforms: Git, GitHub, MySQL, Google Play Console, Visual Studio, Agile/Scrum
- Core Concepts: Game Design, Level Design, Game Loop & Mechanics Design, Debugging & Performance Optimization, Software Development Life Cycle (SDLC)

PROFESSIONAL EXPERIENCE

Unity Game Developer Intern — DataMonk

Jul 2025 – Oct 2025

- Programmed gameplay mechanics and performance optimizations in Unity (C#) for a professional mobile game development team, contributing to a 4-month product development cycle.
- Designed, developed, and published 2 mobile games (Monkey Jump, Full Throttle) end-to-end from concept to Google Play Store release.
- Built core UI systems, responsive player controls, and foundational multiplayer mechanics used across both titles.
- Executed debugging, QA testing, and performance profiling, reducing bugs and improving frame-rate stability prior to release.
- Tools & Technologies: Unity, C#, Git, Google Play Console.

GDAI Student Ambassador — GDAI

Jun 2026 – Present

- Partner with IMA board members to plan and run career-development programs and technical events for 50+ student participants.
- Facilitate recurring meetings to increase student awareness of careers and emerging trends in the IT and game development industry.
- Coordinate networking and training sessions, sourcing and hosting guest speakers from a range of technology and business backgrounds.

PROJECTS

Monkey Jump — Mobile Game (Google Play Store)

- Developed a 2D platformer in Unity/C# where the player character reclaims a stolen banana from aliens across multiple levels.
- Designed the core gameplay loop, level progression system, and UI/UX flow from scratch.
- Achieved 250+ downloads and 50+ monthly active users post-launch on the Google Play Store.
- Tech Stack: Unity, C#.

Full Throttle — Mobile Game (Google Play Store)

- Built a 3D endless bike-riding survival game requiring players to dodge dynamically spawning obstacles.
- Implemented core mechanics, real-time scoring system, and in-game UI.
- Reached 50+ downloads on the Google Play Store within the first release cycle.
- Tech Stack: Unity.

[Flip Verse — 2D Platformer \(itch.io\)](#)

- Designed and developed a fast-paced 2D gravity-flip platformer with procedurally arranged obstacle courses.
- Implemented smooth one-tap controls, responsive physics, and a minimalistic UI to maximize engagement.
- Tech Stack: Unity.

EDUCATION

B.Tech, Game Technology — Poornima University

2023 – 2027

High School — Rawat Public School

2023

CERTIFICATIONS

- Unity Essentials — Unity Learn
- Foundations of User Experience (UX) Design — Google
- Start the UX Design Process — Google

ACHIEVEMENTS & ACTIVITIES

- Won 1st Place, Jabali AI Game Jam (January 2026) and Football Game Jam (2026).
- Secured 1st Prize, Game Development category, Prayogam 2024.
- GDAI Student Ambassador, 2026–27.
- Active participant, Jaipur Game Jam and BYOG (2024–2025).
- Published 2 mobile games (Monkey Jump, Full Throttle) on the Google Play Store.
